January 14, 2010

To Whom It May Concern,

The intention of this letter is to delineate the business relationship between the companies of CS & W and L & L Asphalt. I am the owner and operator of L & L Asphalt which is an SBE, WBE and DBE sub-contractor.

L & L Asphalt has bid on, and been awarded several jobs by CS & W of which all were completed in 2009. Those jobs completed include paving at Sky Harbor Airport and at Chandler and 91st Ave Waste Water Treatment Plant. The aforementioned jobs run the gamut of small patches in parking lots to large street main line paving. We have been able to perform to their expectations largely in part because CS & W outlines the scope of their work very clearly. It is a true pleasure to have a business partner that is clear and concise about their expectations and who have integrity; they do what they say they are going to do.

CS & W has made it clear that safety while on the job site is their number one priority regardless of the location and amount of work being performed. It has also been obvious to us that they strive to be a good business partner; this can be a rarity in the contractor/subcontractor relationship. Some examples of this partnership have included always having a superintendent with our crew, arriving on time and early to the job site, as well as being prompt with addressing any issues that arose. L & L was treated with the upmost respect from everyone at CS & W. From the team in the office to those in the field we did not experience any issues when change orders were placed or payments were due which for a SBE, WBE, DBE this is a very important matter.

The work we do at L & L Asphalt would be much less stressful if all of our customers were like CS & W. We hope to continue our business relationship with them in 2010 as they have had a large roll in keeping us in business in 2009.

Sincerely,

A handwritten signature in cursive script that reads 'Rita Lawrence'.
