---

To whom it may concern,

In August of 2009 RBG Construction Company LLC was introduced to CSW Contractors Inc. through the Associated Minority Contractors of America ( AMCA). CSW had called the AMCA in search of a qualified minority company to do work at Sky Harbor Airport and other areas. Immediately we took the time to make an appointment with Mr. Dick Sigler and some of his project management and estimating team. We made our presentation based on our past performance and qualifications as a concrete sub-contractor. Mr. Sigler and his staff received our presentation and company with open arms and introduced us to his entire office. Since then we have received multiple contracts from CSW. RBG has preformed and been treated fairly on these projects. It is our conclusion that CSW is committed to the utilization of small and minority businesses. RBG recommends CSW as a leader and advocate for inclusion and participation.

Sincerely,

Raymond B. Gonzales. President
